

# Shafiq

FRONTEND DEVELOPER

---

## About

Passionate and results-driven Frontend Developer specializing in both mobile and web applications. Currently pursuing a Bachelor's degree in Informatics Engineering at Politeknik Negeri Batam, I focus on crafting responsive and user-friendly interfaces. Dedicated to honing my skills in coding and problem-solving, I am committed to building efficient and visually appealing applications. With a keen eye for detail and innovation, I aim to contribute effectively to dynamic and growth-oriented environments.

---

## Experience

**su-re.co (Sustainability & Resilience)** (February 2025 - March 2025)

Redesigning the UI/UX of a website using Figma to create a clean and visually appealing design. This involves applying UX principles by improving the website's layout structure to minimize excessive scrolling and enhance user convenience. Additionally, it includes analyzing UX issues such as inconsistent navigation, content, and typography to ensure a seamless and user-friendly experience.

**Network Technician (Internship) - PT. Telekomunikasi Indonesia** (June 2022 - December 2022)

Performed network troubleshooting and diagnostics to identify and resolve connectivity issues efficiently. Analyzed signal strength, interference, and network performance to ensure stable connections..

---

## Education

**Batam State Polytechnic**

Aug 2023 - Present

Pursuing a degree in Informatics Engineering

**Vocational High School 4 Tanjungpinang**

Aug 2019 - Aug 2023

Computer and Network Engineering
